ÉNUMÉRATION ALPHABÉTIQUE DES COLLEGES ET DES UNIVERSITÉS DU CANADA 594

INTRODUCTION

The National Guide to College and University Programmes is published by the Canada Employment and Immigration Commission. The Guide is designed to assist students planning to enter college or university identify and select suitable educational or training programmes and institutions.

Along with other products of the Canada Employment and Immigration Commission that support the national Stay-In-School initiative, the National Guide to College and University Programmes is part of an information package developed to assist individuals in making sound educational and career decisions.

Many students are uncertain about their long-term plans regarding future work activity or have not established any relationship between work and education. The National Guide will help these students understand this relationship by providing them with a comprehensive list of the more than 10,000 programmes that are offered by post-secondary institutions in Canada.

PRÉFACE

Le Répertoire des programmes des collèges et des universités du Canada est publié par la Commission de l'emploi et de l'immigration du Canada. Le Répertoire a pour objet d'aider les étudiants qui désirent s'inscrire dans un collège ou une université et qui cherchent un programme d'études et une maison d'enseignement postsecondaire répondant à leurs besoins.

De même que d'autres produits de la Commission de l'emploi et de l'immigration du Canada qui appuient le Projet national d'incitation à la poursuite des études, le Répertoire des programmes des collèges et des universités du Canada fait partie d'un ensemble de produits visant à aider les individus à prendre des décisions éclairées quant à leur éducation et carrière.

Plusieurs étudiants sont incertains au sujet de leurs intérêts à long terme, spécialement en ce qui touche leur futur emploi, ou ne voient pas le lien qui existe entre le monde du travail et celui de l'éducation. Le Répertoire aidera ces étudiants à comprendre cette relation en leur donnant une liste comprenant 10000 programmes offerts par les maisons d'enseignement du Canada.

Regular Credit programmes are listed alphabetically in Section 1; Section 2 provides an alphabetical list of cooperative programmes, while Section 3 provides an alphabetical list of apprenticeship programmes. Section 4 provides an alphabetical list of Continuing and Part-Time Education programmes and Section 5 lists the Distance Education Programmes. Section 6 provides students with a list of post-secondary institutions and the programmes each offers. This Volume will thus help students identify the schools offering a programme that interests them and should also serve as a valuable resource document to counsellors requiring this type of information.

The programmes presented in Section 6 are identified by the exact titles used by the institutions that offer them. General programme information, such as type of programme and duration, is also provided.

Before making a final decision on a specific institution or programme, CONSULT THE INSTITUTION.

Les programmes réguliers sont énumérés alphabétiquement dans la Section 1 et les programmes coopératifs apparaissent à la Section 2. La Section 3 vous présente les programmes d'apprentissage alors que la Section 4 vous énumère les programmes de l'éducation permanente et la Section 5 présente les programmes par correspondance ou de formation à distance. Le nom des maisons d'enseignement apparaît dans la Section 6 sous un classement alphabétique et identifie les programmes offerts par chaque maison. Cette publication aidera donc les étudiants à identifier les maisons offrant un programme qui les intéresse et pourra servir également de document de référence pour les conseillers.

Les programmes d'études présentés dans la Section 6 sont identifiés par les titres exacts qu'utilisent les maisons d'enseignement. De l'information générique sur chaque programme, tels que le niveau et la durée, est aussi présentée.

Avant de faire votre choix définitif sur un programmeou une maison d'enseignement donnés VEUILLEZ CONSULTER LA MAISON D'ENSEIGNEMENT.

ALPHABETICAL LIST OF COOPERATIVE EDUCATION PROGRAMMES

ÉNUMÉRATION ALPHABÉTIQUE DES PROGRAMMES COOPÉRATIFS

PROGRAMMES OFFERED IN ENGLISH

Cooperative Education is the integration of classroom theory with practical experience in appropriate fields of business, industry, government, social services and the professions. The cooperative education student is engaged in productive work and receives remuneration for the work performed. The total work experience is normally fifty percent of the time spent in academic study.[1]

Such programmes are designed to provide an opportunity for students to include work experience in their normal academic year.

Students must maintain their registration as full-time students at a university or college and must successfully complete their work terms.

ALPHABETICAL LIST OF COOP PROGRAMMES

PROGRAMMES OFFERTS EN FRANCAIS

Un programme coopératif est l'intégration de l'expérience pratique exercée dans le domaine des affaires, de l'industrie, du gouvernement, des services sociaux et des professions à la théorie académique.

Dans un programme coopératif, la personne est impliquée dans un travail productif et reçoit une rémunération. Le nombre total d'heures de travail équivaut normalement à cinquante pour cent du temps des études en classe.

Les programmes coopératifs sont conçus de façon à donner aux étudiants l'opportunité d'inclure l'expérience de travail à leur programme académique.

Les étudiants doivent demeurer inscrits à temps plein au collège ou à l'université et doivent compléter, avec succès, leurs périodes de travail.

ALPHABETICAL LIST OF APPRENTICESHIP PROGRAMMES

ÉNUMÉRATION ALPHABÉTIQUE DES PROGRAMMES D'APPRENTISSAGE

PROGRAMMES OFFERED IN ENGLISH

Apprenticeship programmes are those which, through on-the-job and related classroom training, prepare a person for a specific trade or occupation.

Some trades or occupations are designated by provincial law, and require that all eligible persons employed in a capacity other than journeyman(women) in the trades be registered as apprentices.

In addition to on-the-job training, all apprentices in those designated trades are required to attend regular in-school training.

In the following list, apprenticeship programmes are arranged alphabetically with post-secondary institutions offering each programme listed underneath.

In Quebec, apprenticeship programmes are offered at the secondary-school level. For more information, contact the:

FRANCAIS

Les programmes d'apprentissage, par la formation en cours d'emploi et la formation en classe, préparent une personne à exercer un métier ou une profession spécifique.

Quelques métiers font l'objet d'une loi provinciale et exigent que toutes personnes éligible et employées dans un métier sous un autre titre que compagnon, doivent s'inscrire comme apprentis.

Les apprentis d'un métier désigné par une loi doivent, en plus de la formation en cours d'emploi, assister à des sessions de formation dans une école ou un collège.

Dans l'énumération des programmes qui suit, les titres des professions sont classés alphabétiquement et sous chaque titre apparaissent les maisons d'enseignement postsecondaires qui offrent ces programmes.

Au Québec, les programmes d'apprentissage sont offerts au niveau secondaire. Pour de plus amples renseignements, veuillez vous adresser à:

ALPHABETICAL LIST OF CONTINUING AND PART-TIME EDUCATION PROGRAMMES

ÉNUMÉRATION ALPHABÉTIQUE DES PROGRAMMES DE L'ÉDUCATION PERMANENTE

PROGRAMMES OFFERED IN ENGLISH

Continuing Education offers the provision of opportunities for lifelong learning to people who are not involved in traditional full-time credit programmes.

In addition to providing classroom instruction continuing education studies use conferences, workshops, special institutes, media and technology, and other innovative modes which transport the benefits of learning to wherever and whenever learning is needed. These studies also offer specially designed long-term programmes leading to university degrees.

Continuing education offers a wide range of credit and non-credit academic courses. These courses can be taken for job advancement, entrance into colleges or universities, keeping up-to-date with today's technology, career exploration, learning interest or simply for general interest.

Credit courses are available on a part-time basis throughout the year. Students may take these courses for credit towards a college diploma, university degree or for professional development to meet other personal objectives.

Non-credit courses are available on a part-time basis to those who are interested in learning a wide variety of subjects, career exploration, keeping up-to-date with today's technology or for general interest.

The following listing of continuing and part-time programmes offered by colleges and universities in Canada is arranged alphabetically. Under each programme title, the institutions offering the programme appear. Users interested in obtaining an institution's address as well as general information on the programme that interests them should refer to Section 6 "LIST OF INSTITUTIONS AND THEIR PROGRAMMES BY PROVINCE".

PROGRAMMES OFFERTS EN FRANCAIS

L'éducation permanente offre une grande possibilité d'études à des personnes qui ne sont pas impliquées dans le processus de formation régulière à temps plein.

En plus de fournir des sessions de formation en classe, l'éducation permanente utilise souvent des conférences, des ateliers, des institutions spécialisées, les média et la technologie de pointe. L'éducation permanente peut également offrir des études à long terme menant à un diplôme universitaire.

L'éducation permanente offre un vaste choix de cours avec ou sans crédits. Ces études ont pour fins l'avancement au travail, l'entrée aux collèges ou aux universités, demeurer à la fine pointe de la technologie, l'exploration d'une carrière, de susciter l'intérêt aux études ou simplement d'offrir une formation générale.

Les cours avec crédits sont disponibles à temps partiel durant toute l'année académique. Les étudiants prennent ces cours en vue de l'obtention d'un diplôme collégial, universitaire ou pour fin de formation professionnelle dans le but de rencontrer des buts et objectifs personnels.

Les cours non crédités sont disponibles à temps partiel à ceux qui désirent parfaire leurs connaissances, faire un choix de carrière, se tenir à jour sur la technologie de pointe ou pour intérêts personnels.

Les programmes et les cours de l'éducation permanente offerts par les collèges et les universités du Canada sont présentés sous une énumération alphabétique. Sous chaque titre de programme ou de cours, le nom des maisons d'enseignement postsecondaire apparaissent. Les personnes intéressées à obtenir l'adresse d'une maison ainsi que l'information générale sur les programmes doivent se référer à la Section 6 "CLASSEMENT DES MAISONS D'ENSEIGNEMENT ET LEURS PROGRAMMES PAR PROVINCE".

ALPHABETICAL LIST OF DISTANCE EDUCATION PROGRAMMES

ÉNUMÉRATION ALPHABÉTIQUE DES PROGRAMMES PAR CORRESPONDANCE OU DE FORMATION A DISTANCE

PROGRAMMES
OFFERED
IN
ENGLISH

Distance education programmes and courses offer to students an opportunity to study on their own time and within their own chosen environment. A distance education course is designed for individuals who live in an isolated area where institutional instruction is not available, are employed but wish to gain further qualification through part-time study, enjoy learning on their own and at their own pace, and have commitments that will prevent regular attendance at regular daytime courses.

Distance education was created to provide individuals, who could not go to an ordinary school or university for financial, social, geographic or medical reasons, with the opportunity to study.

The listing of distance education programmes offered by colleges and universities in Canada is arranged alphabetically. Under each programme title, the institutions offering the programme appear. Users interested in obtaining an institution's address or general information on the programme that interests them should refer to Section 6 "LIST OF INSTITUTIONS AND THEIR PROGRAMMES BY PROVINCE".

FRANCAIS

Les programmes ou les cours de formation à distance offrent aux étudiants la possibilité d'entreprendre des études à leur propre rythme et dans un environnement qu'ils choisissent. Un cours de formation à distance est conçu pour tout individu qui demeure dans une région éloignée où il ne peut exister de formation structurée, est employé à temps plein et désire compléter sa formation par l'enseignement à temps partiel, préfère étudier à son propre rythme, et ne peut participer à des cours réguliers.

La formation à distance fut mise sur pied afin d'offrir à toute personne qui ne peut s'inscrire dans un collège ou une université pour des raisons financières, sociales, géographiques ou médicales, l'opportunité d'étudier.

L'énumération des programmes et des cours de formation à distance offerts par les collèges et les universités est classée alphabétiquement. Sous chaque titre de cours se retrouvent les maisons d'enseignement offrant le programme. Les utilisateurs intéressés à obtenir l'adresse d'une maison d'enseignement, ou de l'information générale sur des programmes, doivent consulter la Section 6 "CLASSEMENT DES MAISONS D'ENSEIGNEMENT ET LEURS PROGRAMMES PAR PROVINCE".

LIST OF INSTITUTIONS AND THEIR PROGRAMMES BY PROVINCE

CLASSEMENT DES MAISONS D'ENSEIGNEMENT ET LEURS PROGRAMMES PAR PROVINCE

INTRODUCTION

The list of programme titles by institution provides a listing of the exact titles of programmes offered in colleges and universities in Canada. Institutions are listed alphabetically by province. Programmes are arranged alphabetically by institution. For each programme, information on the level of study and programme duration is given.

The following codes represent the levels of study:

A.....Apprenticeship Programme.

Ac....Certificate of Achievement, Citation or Proof of studies.

T.....Programme offering necessary credits to be accepted for admission to college or university.

C.....Studies leading to a Certificate.

D.....Studies leading to a Diploma.

Bg....General Bachelor's Degree.

Bh....Honours or Special Degree.

Gd....Graduate Studies Diploma.

L.....Licence.

M.....Master's Degree.

Dd....Doctoral Degree or Ph.D.

Pd....Post Doctoral Degree or Ph.D.

Numbers which follow the letter(s) indicate the period of duration of the programme:

1.....One Semester Duration (or three months).
2.....Two Semesters Duration (or one academic year).
3.....Three Semesters Duration.
4.....Four Semesters Duration (or two academic years).
5.....Five Semesters Duration.
6.....Six Semesters Duration (or three academic years).
7.....Seven Semesters Duration.
8.....Eight Semesters Duration (or four academic years).
9.....Nine Semesters Duration.
10....Ten Semesters Duration (or five academic years).

PRÉFACE

Le classement des programmes selon les maisons d'enseignement énumère les titres des programmes offerts par les collèges et les universités au Canada. Les établissements sont classés en ordre alphabétique selon leur province. Sous chaque maison d'enseignement, les programmes d'études sont classés alphabétiquement et des renseignements sur le niveau d'études et la durée des programmes sont présentés.

Les niveaux d'études suivants apparaissent à la fin de chaque titre de programme:

A.....Programme d'apprentissage.

Ac....Attestation d'études, document d'apprentissage.

T.....Programmes d'enseignement générale menant à l'université, ou des programmes se terminant dans un autre collège ou université.

C.....Programme menant au certificat.

D.....Programme menant au diplôme.

Bg....Baccalauréat général.

Bh....Baccalauréat spécialisé.

Gd....Diplôme d'études supérieures.

L.....Licence.

M.....Maîtrise.

Dd....Doctorat ou Ph.D.

Pd....Diplôme d'études post-doctorales.

Les chiffres qui suivent le niveau d'études indiquent la durée du programme offert:

1.....Durée de un semestre (ou trois mois).
2.....Durée de deux semestres (ou une année scolaire).
3.....Durée de trois semestres.
4.....Durée de quatre semestres (ou deux années scolaires).
5.....Durée de cinq semestres.
6.....Durée de six semestres (ou trois années scolaires).
7.....Durée de sept semestres.
8.....Durée de huit semestres (ou quatre années scolaires).
9.....Durée de neuf semestres.
10....Durée de dix semestres.
